

Door Shoes

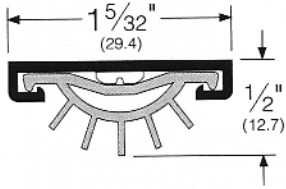

■ Now available with PemkoPrene™ (PK) thermo-plastic elastomer, an excellent cold weather seal which stays flexible between -70°F & +250°F.

■ Also available with vinyl (W); both seals are the same shape and size.

■ Slotted holes for easy adjustment.

■ Rain drip model is ideal for deflecting rain away from the bottom of door.

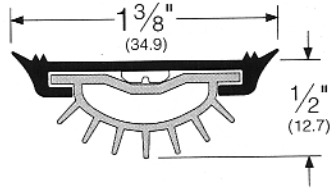

■ Door shoes are provided with stainless steel fasteners.
